Championing Women in STEM

Media Pack

WISE Awards 2024 | Championing Women in STEM

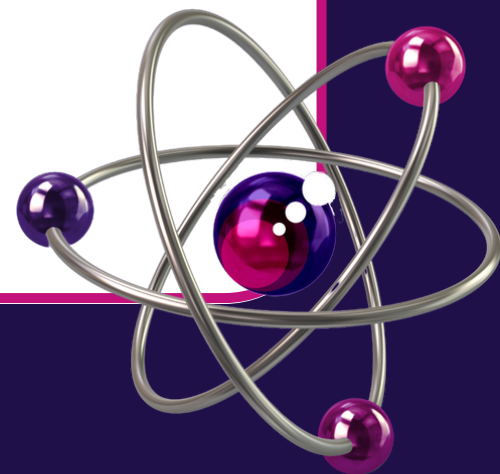

WISE is proud to host the 2024 Awards in the city of Leeds, Yorkshire. This key event will celebrate outstanding women in STEM, and applaud organisations which are making impactful changes to their gender balance.

This year, the awards will also celebrate Diversity and Inclusion (D&I) pioneers and highlight the hard work, success, determination and commitment of people and organisations helping to grow the number of women in the core-STEM workforce.

"Our 2024 awards will provide an excellent opportunity to recognise and raise the profile of pioneering women in STEM working to improve gender balance."

"We will also celebrate high achievers in the wider D&I space since much of this work improves circumstances for women in STEM professions."

Kay Hussain, WISE CEO

WISE Awards 2024 | Championing Women in STEM

Categories

This year we have 10 categories to celebrate the hard work, success, determination and commitment of people and organisations helping to grow the number of women in the core-STEM workforce.

STEM Returner Award

Celebrating an individual who after a career break has returned to a STEM and excelled as a result.

WISE Outstanding Woman in Science Award

Celebrating an individual who has excelled in her field and set an example for women in science.

WISE Outstanding Woman in Technology Award

Celebrating an individual who has excelled in her field and set an example for women in technology.

WISE Outstanding Woman in Engineering Award

Celebrating an individual who has excelled in her field and set an example for women in engineering.

The Princess Royal's WISE Lifetime Achievement Award

Celebrating a woman who is later in her career, whose long-standing dedication has made significant and evident improvements in STEM.

EDI Champion Award

Celebrating an exceptional individual or organisation who has gone above and beyond in championing Equity, Diversity and Inclusion in STEM.

The Princess Royal's WISE Rising Star Award

Celebrating an individual that shows great promise within her STEM role.

STEM Ally Award

Celebrating an individual who has actively promoted or contributed to allyship or has supported the equality and progression of women within the STEM industry.

STEM Leadership Award

Celebrating a woman business leader who stands out as an outstanding role model for women in STEM and supports equity within her organisation.

Nurturing New Talent Award

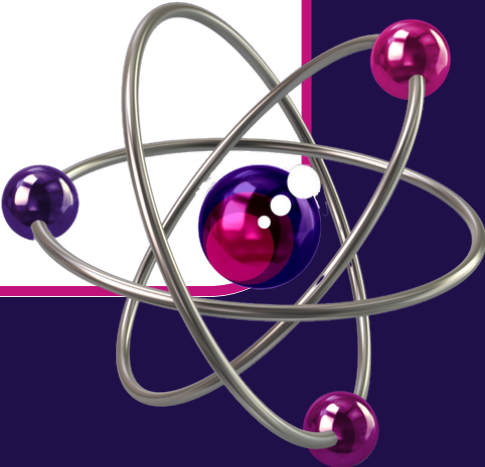

Recognising an organisation, mentor - an individual who has nurtured and developed female STEM talent and enabled them to fulfil their ambitions with successful careers.
